

The Municipality of Anchorage (MOA) is planning to upgrade the Image/Reflection Drive area (see map on back). Improvements are expected to include:

- New road foundation
- New storm drain system
- Improved Street lighting
- New asphalt pavement
- Improved Pedestrian facilities

The MOA has contracted with CRW Engineering Group, LLC to provide preliminary engineering and design services. The project is funded through the Draft Design Study Report (DSR) phase. No funding for construction has been received at this time.

Starting in March, expect to see geotechnical and survey crews in your neighborhood. They will be drilling within the public right-of-way to collect soil and groundwater data as well as mapping important features like driveways, utilities and building corners. Thank you in advance for your patience, and please use caution when driving near the field crews.

For more information and to sign up for e-mail updates, please visit the web page or contact:

Justin Keene, Project Manager, CRW Engineering Group, LLC

How to get involved:

- Attend the University Area Community Council Meeting: The project team will present updates at a few council meetings starting in the fall of 2016.
- Attend a public open house meeting: Two meetings are planned during the Draft DSR phase.
- Visit the project website for meeting schedules, project documents and to sign up for e-mail updates.
- Fill out a project questionnaire when it is mailed to you later this spring.
