Project Background

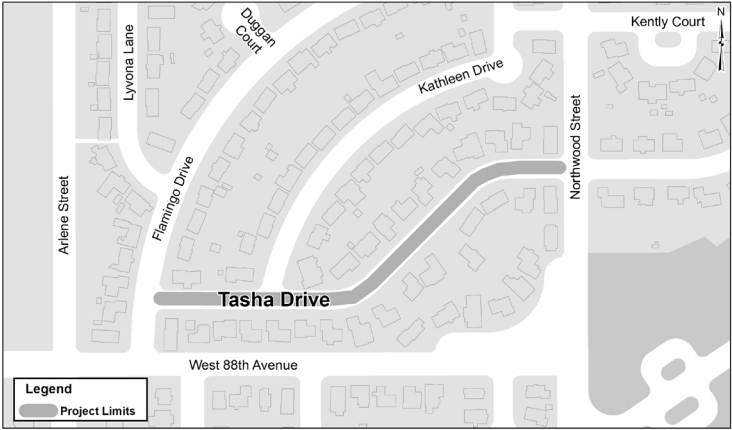

The Municipality of Anchorage (MOA) is planning to reconstruct Tasha Drive (from Flamingo Drive to Northwood Street) to meet current MOA design criteria for a local roadway.

Improvements may include:

- New road foundation
- Continuous storm drain system
- New asphalt pavement
- Improved street lighting
- New curb & gutter
- New sidewalk(s) (if warranted)

The MOA has contracted with CRW Engineering Group, LLC to provide preliminary engineering and design services. The project is funded through the Design Study Report (DSR) phase using local road bonds. Additional funding will be necessary for design and pre-construction tasks. The earliest construction could occur is in 2022 if funding becomes available.

Crews Will Begin Working in the Neighborhood

Starting in May, geotechnical and survey crews will be working in the neighborhood. They will be drilling within the public right-of-way to collect soil and groundwater data as well as mapping important features such as driveways, utilities, and building corners. **Thank you in advance for your patience, and please use caution when driving near the field crews.**
